BEKAERT WINDOW FILM ACADEMY

Your First Stop On The Road Towards Business Success

No matter where you are from and what your window film background is, Bekaert provides you with the perfect tool to take your business to the next level - the Window Film Academy. The combination of interactive classroom learning with hands-on skills practice provides you with a complete, well-rounded education on everything there is to know about window film and how to sell and install it properly.

Take advantage of our three standard, in-depth courses that are offered throughout the year - they range from 3-5 days, vary in price and touch on shop organization, tool utilization, marketing your business and selling skills.

- Developing Automotive Skills
- Mastering Architectural Window Films
- Advanced Safety & Security Window Films

Field experts designed our curriculum to ensure we provide you with all the information you'll need to become even more successful, skilled and proficient. Course details are posted on our web site or to find out more call **1-800-282-9031/ 1-727-540-9797** and ask for "training". Schedule your session today!

"Only two weeks after taking the Developing Automotive Skills course, I've noticed that I am shrinking rear windows more efficiently - cutting my installation time in half! The hands-on experience was invaluable."

*Don McCrae,
Dependable Detailer, NJ*

"The Mastering Architectural Window Film course was the perfect jump start for my window film business. I've improved my installation and selling skills considerably - I'm securing more jobs and completing the work much more efficiently."

Mike Comerford, Vulcan Signs Unlimited, United Kingdom

"The Bekaert Window Film Academy provides such a thorough, detailed curriculum, I was able to make an informed technical presentation to a group of architects just days after completing the course. Being able to address their performance and glass compatibility concerns gave me a great edge over the competing dealers."

*Dave Belding,
Owner of On-Site of New York*

Our wide variety of top quality knives meet the needs of any tinter. Choose from our unbeatable selection of heavy-duty & auto lock system OLFA's. The comfortable handle of the auto lock system OLFA is one any Pro-Installer would appreciate.

KNIFE REPLACEMENT BLADES

A	0531 SS-50	OLFA Snap-Off Blades Stainless Steel 50 pk.
B	0531 SS-10	OLFA Snap-Off Blades Stainless Steel 10 pk.
C	0531 CS-50	OLFA Snap-Off Blades Carbon Steel 50 pk.
D	0535 CS-50	OLFA Heavy Duty Snap-Off Blades Carbon Steel 50 pk.
E	0532 SS-50	NT Snap-Off Blades Stainless Steel 50 pk.
F	0533 CS-100	Standard Snap-Off Blades Carbon Steel 50 pk.

The type of blade you use makes a difference when cutting film. Rust-resistant stainless steel snap-off blades are ideal for any installation and are less likely to cut glass. Bekaert recommends using stainless steel blades to help avoid cutting glass.

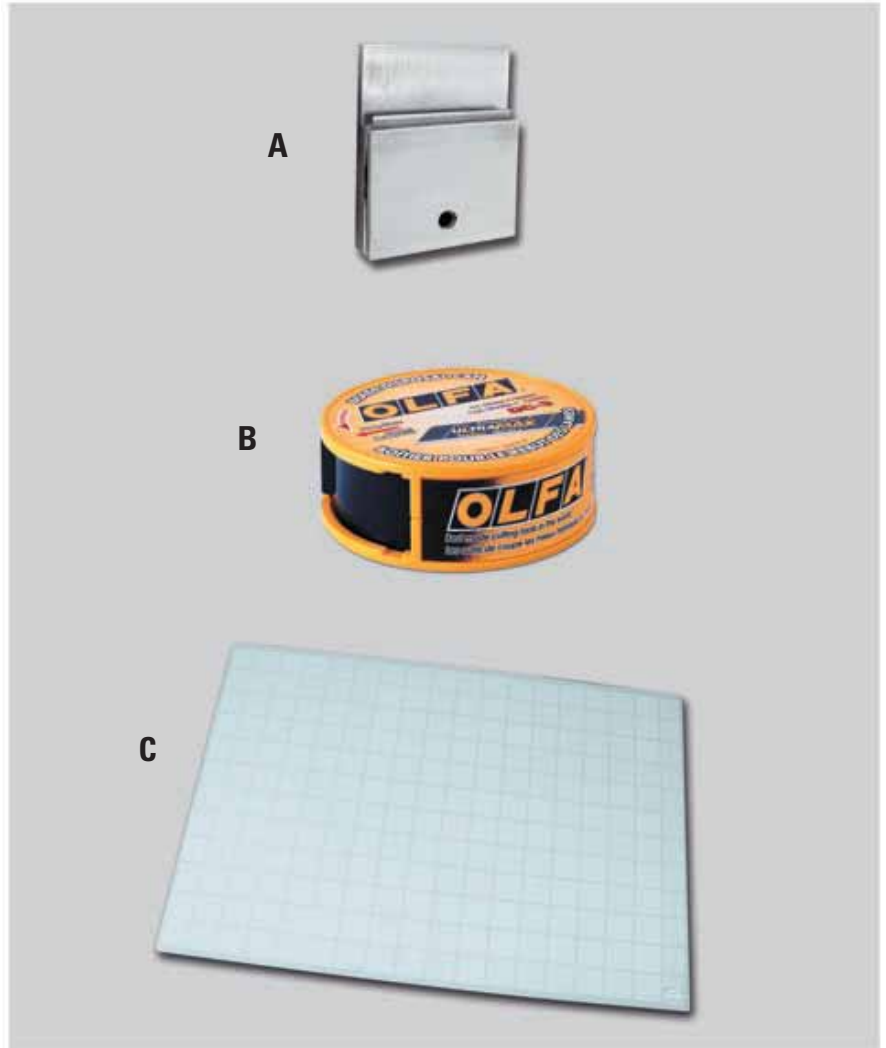

KNIFE & BLADE ACCESSORIES

A 0546 Automotive Glass Edge Trimmer

B 0547 Snap-Off Blade Disposal Case w/Secure Side Storage

C 0548 LG OLFA Self Healing Cutting Mat 24" x 36"

Expand your installation capabilities as well as your tool belt! The automotive glass edge trimmer allows you to make an exact fit on glass for a professional finish. Another useful accessory is the blade disposal case. The secure side storage keeps the dangerous blades locked inside and out of your way.
